Commissioner for Patents

The Reply Brief filed May 5th, 2008, has been noted and has been forwarded to the Board of Appeals

At best, Appellant's arguments in the Reply Brief are interpreted by the examiner to mean that Sussman may not anticipate the claimed invention at the time when the directory is first downloaded (e.g., in the morning of day one), but once an outgoing call(s) is made to or an incoming call(s) is received from a telephone number(s) in the directory, then at that time Sussman would anticipate the claimed invention (e.g., in the afternoon of day one or on day two or three, and all the time thereafter). The stored numbers continue to be stored.
